

**A LITTLE BOOK FOR  
NEW SCIENTISTS**

**WHY AND  
HOW TO  
STUDY  
SCIENCE**

**JOSH A. REEVES &  
STEVE DONALDSON**

**IVP Academic**

An imprint of InterVarsity Press  
Downers Grove, Illinois

“*A Little Book for New Scientists* is certainly the most concise and helpful book for young persons (and their parents) on a science career that I have ever seen. I would hope that every young person considering a career in the sciences will read this book and then take it down off their shelf about once a year—re-reading it regularly as they proceed through graduate school and their post-doc years. If I’d had this book when I was beginning my career, I would have wanted it in a prominent place on my bookshelf—right next to my Bible.”

**Darrel R. Falk**, emeritus professor of biology at Point Loma Nazarene University, author of *Coming to Peace with Science*

# CONTENTS

Acknowledgments 00

Introduction

## **PART ONE**

### *Why Study Science?*

1. God and the Book of Nature
2. Christianity and the History of Science
3. Science and Ethics

## **PART TWO**

### *Characteristics of Faithful Scientists*

4. Hope in the Face of Adversity
5. Life Together: Working with Others  
in a Scientific Community
6. The Known Unknowns: Science  
and Intellectual Humility

## **PART THREE**

### *Science and Christian Faith*

7. Science and Scripture
8. Are Scientists Mostly Atheists?
9. Science for the Good of the Church
